

SUMMIT.

VEHICLE STORAGE & AIRPORT PARKING

HOW DOES SUMMIT CREATE A SOLUTION?

Owning a motor vehicle of any kind, whether it is for function or pleasure, or both –requires three components: time, money and space. In many cases, people don't have access all three at once. This is where Summit comes in.

Summit provides both space and the gift of time – both at an economic value to the customer.

WHAT IS SUMMIT?

Summit is a full service vehicle storage and airport parking business.

WHAT IS VEHICLE STORAGE?

Many people know of self-storage. Vehicle storage is a similar concept, but for vehicles. As cities grow larger and space becomes smaller, and more valuable, people don't want to compromise their space for their belongings. Vehicle Storage allows for both.

Summit is a service-based business, for customers seeking space to store their vehicles when they aren't in use.

Summit offers short-term and long-term vehicle storage with outdoor, indoor or indoor-heated options.

WHAT IS AIRPORT PARKING?

Summit Airport parking is for customers looking for a parking solution while travelling (via flight). For example, many clients travel longer distances to get to the airport and require weeks, even months of parking. Summit offers a cheaper solution to the standard airport parking rates.

WHAT DOES FULL SERVICE MEAN AND INCLUDE?

From the moment the client leaves their vehicles in our hands, to the moment they drive away, Summit will take care of any details the customer wishes. Summit offers a complete 'hands off experience'. In addition to Summit's storage options, we also offer a full list of customized services. From detailing, winterizing, repairs, the list is endless and each service is quoted based upon each individual need. These services are added to customer's monthly invoice, making payment simple and concise.

ARE VEHICLE STORAGE AND AIRPORT PARKING SEPARATE ENTITIES?

They can work together as one! If a client is looking for airport parking, but wishes to have their vehicle stored at our facility, while they are away, we will pick up the client's vehicle from the airport and deliver it back upon the client's arrival. We also offer our complete list of services to these clients as well. Many clients enjoy the convenience of having their car detailed and serviced while they are away and not in need of their vehicle.

WHAT MAKES SUMMIT UNIQUE?

Our tagline is "It's that Simple." We have made it our mission to honour and exceed our customer's storage and parking needs. Our mission is to provide clean, safe and dependable vehicle storage that our customers have come to rely on.

Summit is open seven days a week, 365 days a year, giving clients access to their vehicles when needed throughout the year. Unlike Summit, many vehicle storage businesses are only open seasonally. They are open a short period of time (typically, one or two weekends) in the fall to allow customers to drop off their vehicles and a short window in the spring to have clients pick up their vehicles.

With over ten years in the vehicle storage business, vehicle storage and airport parking are all we do. Meaning – it is our sole focus. Many other vehicle storage facilities use this business structure as a secondary form of income. For example, warehousing and shipping non motor vehicle goods.

Summit offers a full menu of services. Our options are limitless and we make every effort to go above and beyond to complete the 'ask'. Many vehicle storage businesses offer a limited list of services, if any at all.

Summit has built a reputation on providing these unique services with a smile and positive attitude. Check out our Google Reviews! In addition to receiving positive accolades, a large percentage of Summit clients are happy return-customers that we have gotten to know on a personal level through the years.
